

Product Brief

Executive Dashboard

Decision Support that Provides Real-Time Data About Key Targets and Goals

View a graphical display of key indicators such as the missed appointment rate, number of intakes, and daily revenue.

Set targets and track measurable goals that impact your bottom line!

Track vital information with the click of a button

As clinic director, you're confronted with the challenge of providing quality care with limited resources. You know that instant access to key metrics is the only way you can improve productivity.

Imagine having continuously-updated answers to these kinds of questions:

- How many patients did we discharge today?
- How many intakes did we conduct this week?
- How many claims did we bill?
- What was our total revenue for today?

Get the information you need, when you need it

The Executive Dashboard helps puts you in command of your agency's operations. Want to generate more detailed reports to present to your board of directors? No problem. Combine the Dashboard's graphical displays with listings generated by ClinicTracker Connect's over 200 built-in and customizable reports. With little effort you can generate presentations that will impress your board members. It will be obvious to them that you have your finger on the pulse of the agency.

The ClinicTracker Connect Executive Dashboard provides a visual display of your agency's vital signs, including data on:

- Intakes
- Admissions
- Discharges
- Kept Appointments
- Kept Appointment Rate
- Billing generated
- Payments
- Insurance payments
- Patient payments
- Program usage

Using the Executive Dashboard

Set your own measurements and performance targets. View results in detail or summary for any period of time you choose.

Results that exceed the target goal are shown in green

Results below goal are shown in red

Results that meet goal are shown in black

The statistics are accompanied by descriptive graphs and charts that can be displayed in multiple formats (lines, bars, and pie-charts in both two and three dimensions). Drill down to detailed reports on every aspect of your operation.

The Executive Dashboard can be personalized for your agency to include other key metrics that you would like to monitor.
