Authenticating insurance coverage and checking eligibility are routine but tedious elements of your billing workflow. Insurance eligibility verification is easy with ClinicTracker because it automates the entire process. The process is fully integrated with the ClinicTracker Intake form, that way your staff can instantly confirm the validity of a patient's insurance.

## Benefits

With Insurance Eligibility Verification, increase office productivity by:

- Minimizing lengthy calls to insurance providers
- Addressing insurance questions prior to appointments
- Exploring alternative payment methods for uninsured patients before they incur charges
- Making it easy to verify insurance eligibility for walk-in patients or last minute appointments

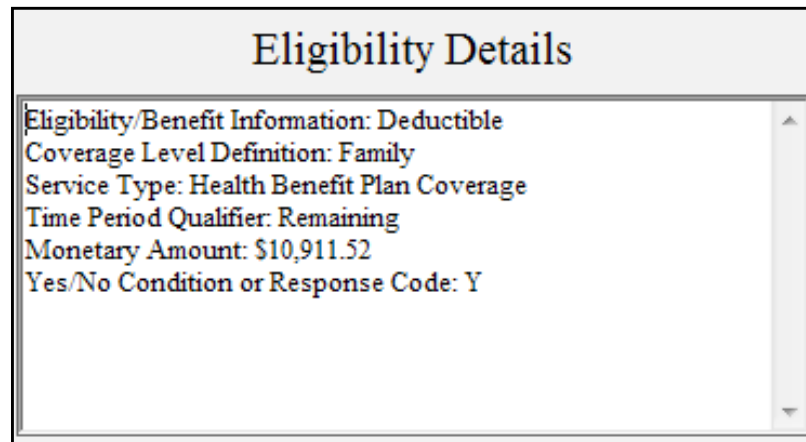

### Verifying insurance eligibility

With this user-friendly service, you have the option of checking one patient at a time or forming groups of patients to be verified. For example, you might process in one batch all the patients who have an appointment the following day or within a certain date range. The process is simple: Choose the date range and service types to verify and click the Verify Eligibility button. You will receive an answer in just seconds. Because all prior requests are saved, you can always look up information about a patient's plan, coverage, deductibles, and more.

#### Affordable Answers

You can have this innovative service for a small per transaction fee. Don't miss out!  
.....

The ClinicTracker Connect Insurance Eligibility Service eliminates the hassle of calling insurance companies for verification. For a small transaction fee, you can get instant verification. It's affordable for any size agency. This solution ensures faster payments, reduces wasted staff time, and guarantees that your patients will have a better experience with your office!
